

Xfinity Internet is here!

Students get fast, reliable Internet and WiFi at no extra charge. Get connected today.

How to Connect

- 1 Enable WiFi on your wireless device with a web browser
- 2 Select "Academy_WiFi" in your list of available networks, then launch your browser
- 3 Sign up or sign in with your username and password

After you have signed in once with your device, you will automatically connect to the network in following sessions.

How to set up devices like gaming systems and tablets:

If your device has a web browser:

Follow the steps above, log in to your existing account and the new device will automatically be added.

If your device doesn't have a web browser:

Log in to xfinityng.com and add the MAC address of the device to your account. If you aren't sure where the MAC address is located, please contact the Xfinity Support Team at 1-844-602-9973.
